SUMMARY

Results-driven Software Developer skilled in full-stack web development using the MERN stack (MongoDB, Express.js, React, Node.js) and proficient in C++ for building efficient algorithms and data structures. Experienced in designing scalable, user-friendly applications and implementing secure systems with JWT authentication and RESTful APIs. Adept at creating responsive interfaces with React.js and Tailwind CSS.

SKILLS

Programming Languages: C++, JavaScript

Frontend: React.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, RESTful APIs

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman

EXPERIENCE

Numentry Technologies, Pune

July 2024 - September 2024

Software Developer Intern

- Developed scalable web applications using the MERN stack, ensuring optimal performance and functionality.
- Built dynamic, user-friendly interfaces with React.js and styled them using Tailwind CSS.
- Created and integrated backend APIs for seamless communication between frontend and backend systems.

UPTOSKILLS

June 2024 - Aug 2024

Web Developer Intern

- Designed and maintained web applications using the MERN stack, ensuring responsiveness and cross-browser compatibility.
- Developed RESTful APIs for efficient data communication between frontend and backend.
- Styled responsive user interfaces using Tailwind CSS and Bootstrap.

PROJECTS

EduElevate

Role: Full-Stack Developer | [Visit Project](#)

- Built a platform for students and educators using the MERN stack.
- Designed responsive UIs with React.js and Tailwind CSS.
- Implemented secure user authentication with JWT.
- Developed and deployed RESTful APIs for course management and payment integration.

Movie Ticket Booking System

Role: Full-Stack Developer | [Visit Project](#)

- Designed and developed a movie ticket booking system using the MERN stack.
- Designed a movie ticket booking system with features for movie listings, showtimes, and seat availability.
- Built a secure login/signup system with JWT authentication.
- Automated the release of expired bookings and deployed the platform using Render.

Collaborative Code Editor

Role: Full-Stack Developer | [Visit Project](#)

- Designed and developed a real-time collaborative code editor using the MERN stack.
- Developed a real-time collaborative code editor with WebSockets for simultaneous editing by multiple users.
- Integrated real-time code compilation for instant feedback.
- Ensured seamless user experience with a fully responsive design.

EDUCATION

Shriram College of Engineering & Management

B.Tech (Computer Science & Engineering)

June 2021 – June 2025

St. Paul Convent H.S. School

12th Grade (Math)

Completed: 2021 | Percentage: 91.2%
